PROFESSIONAL SUMMARY

CS graduate focused on junior frontend, UI/UX and AI product roles. Built web/mobile projects with Flutter, JavaScript, Supabase and OpenAI, focusing on user flows and stable AI features.

SKILLS & TOOLS

CORE DEVELOPMENT

- JavaScript
- HTML5/CSS3
- Flutter
- SvelteKit
- Bootstrap

DATA & AI INTEGRATION

- SQL
- PostgreSQL
- Supabase
- OpenAI API
- Prompt Workflow
- Response Checks
- Tableau
- Python

DESIGN & METHODOLOGY

- UI/UX Principles
- User Journey Mapping
- Figma
- Agile/Scrum
- Data Visualization

TARGET STRENGTH

Frontend + UI/UX + AI-assisted product projects, backed by GitHub repositories, portfolio links and deployed web app examples where available.

Highlighted Projects

PERSONAL PROJECT — AI & MOBILE

DreamCatcher

Built a Flutter mobile app with Supabase, PostgreSQL and OpenAI to help users record and review dream entries. Designed the data model, mobile user flow and AI-assisted reflection workflow. Used structured prompts and basic response checks to turn unstructured dream text into summaries, tags and reflection prompts while reducing unstable user-facing results.

- FLUTTER
- SUPABASE
- POSTGRESQL
- OPENAI
- RESPONSE CHECKS

UX & INTERFACE DESIGN LEAD

Online Collaborative Whiteboard

Designed the user flow and interface structure for a real-time collaborative drawing tool using SvelteKit, Supabase and HTML5 Canvas. Applied HCI principles to improve drawing feedback, tool accessibility and responsive canvas usability, making core collaboration actions easier to understand and use.

- SVELTEKIT
- SUPABASE
- HTML5 CANVAS

SCRUM MASTER & UI LEAD

Sports Management System

Led UI direction and workflow planning for a sports administration dashboard in a team of five. Mapped core admin journeys and redesigned dashboard navigation patterns to make event, team and schedule management easier for administrators.

- BOOTSTRAP
- HTML/CSS
- GITHUB ACTIONS

CERTIFICATIONS

Microsoft Certified: Azure AI Fundamentals

Microsoft • June 2025

Foundational understanding of AI and ML concepts, including automation and user experience use cases.

Google Data Analytics Professional Certificate

Google • Sept 2025

Training across data cleaning, analysis and dashboard-based insight sharing.

IBM Excel Basics for Data Analysis

IBM • Aug 2025

Spreadsheet techniques for data cleaning, reporting and analysis.

EDUCATION

BSc Computer Science

University of Leeds, United Kingdom

July 2025 • Honours Class II Division ii

RELEVANT STUDY

User Interfaces, Information Visualization, Web Services, AI, Algorithms & Data Structures.

OSSLT (Diploma)

Etobicoke Collegiate Institute, Canada

2019 - 2021 • Grades 11-12

PERSONAL INTEREST

Game mechanics, player experience (PX) and product design for engagement.

Additional Projects

INTERACTIVE WEB APP

Pomodoro To-Do App

Created a productivity web app combining a Pomodoro timer with an interactive to-do list.

Built from scratch to practise clean frontend structure and a distraction-free user interface.

HTML

CSS

JAVASCRIPT

github.com/zyrus0907/pomodoro-todo

DEPLOYED STUDY TOOL

Flashcard Study App

Built a lightweight web app for creating and reviewing flashcards, focused on quick revision and smooth card-flip interactions.

Deployed via GitHub Pages with a clean responsive interface.

JAVASCRIPT

CSS

HTML

zyrus0907.github.io/flashcard

FUNCTIONAL LAYOUT DESIGN

Video Editing Software

Contributed to the interface structure of a desktop editing tool, focusing on accessible editing controls and a clean workspace.

Worked with an Agile team and applied UI layout principles to support a smoother editing experience.

C++

QTCREATOR

AGILE

Work Experience

Kitchen Staff

Jan - July 2024

Meet Fresh • Leeds, UK

Built consistency, task prioritisation and process discipline in a high-pressure service environment.

Waiter

June - Sept 2023

Ana Gura (Lubuds) • Hong Kong

Handled real-time customer requests, improving communication, prioritisation and service recovery skills.
